## MEMBER OF THE MOMENT

*Seun Odutola*

Major: Biology  
Future Career: Dentist

"This semester I have participated in the Collegiate 100, a student organization that strives to reshape the pejorative stereotype of the African American male, by serving as a mentor to high school students at John Marshall High School. Also, I participated with the dental club and VCU's School of Dentistry in the Missions of Mercy Project designed to provide quality and affordable care to underserved areas."

Awesome job, Seun!
